

FONDATION DES
gouverneurs
de l'espoir

Supporting families of seriously ill
children since 2002

OUR MISSION

The mission of the Fondation des Gouverneurs de l'espoir is to support Quebec families who have a seriously ill child, by improving their quality of life through direct financial assistance and moral support. In this way, we enable parents to focus on what's most important: their child's well-being.

In 2024, over 100 families across Quebec benefited from this assistance, mainly in the form of gift cards to cover essential needs such as groceries, gas or pharmacy.

At important times of the year, such as back-to-school, Christmas or birthdays (for sick children and their siblings), we offer additional gift cards to ease the financial burden and bring a little comfort at these often-busy times.

Thanks to the activities we organize, the outings financed by our generous donors, and the kindnesses of our partners, we enable families to find moments of happiness and respite in their difficult daily lives.

**We strongly believe that helping
a family get better means giving
a seriously ill child a chance to
get better too!**

Grocery

Pharmacy

Gas

Christmas

Back-to-school

Birthdays

At the Fondation des Gouverneurs de l'espoir, we take care to support the whole family of the sick child.

The needs of siblings and parents are taken into account, as their well-being is essential to the family's equilibrium. Depending on their needs, families can receive up to \$1,000 a month for the duration of their child's cancer treatment, or up to 18 months for other serious illnesses.
